BEFORE THE TEXAS BOARD OF NURSING

\*\*\*\*\*

In the Matter of Registered Nurse § AGREED  
License Number 719912 §  
issued to ELIZABETH GARRETT § ORDER

An investigation by the Texas Board of Nursing, hereinafter referred to as the Board, produced evidence indicating that ELIZABETH GARRETT, hereinafter referred to as Respondent, Registered Nurse License Number 719912, may have violated Section 301.452(b)(10)&(13), Texas Occupations Code.

An informal conference was held on September 29, 2009, at the office of the Texas Board of Nursing, in accordance with Section 301.464 of the Texas Occupations Code.

Respondent appeared in person. Respondent was represented by Nancy Roper Willson, Attorney at Law. In attendance were ; Mary Beth Thomas, PhD, RN, Executive Director's Designee; Kyle Hensley, Assistant General Counsel; John Legris, Assistant General Counsel; Anthony L. Diggs, MSCJ, Director, Enforcement Division; Bonnie Cone, MSN, RN, Nurse Consultant; Marcia Wilson, RN, Investigator; and Kimberly Botello-Rodriguez, Investigator.

FINDINGS OF FACT

1. Prior to the institution of Agency proceedings, notice of the matters specified below in these Findings of Fact was served on Respondent and Respondent was given an opportunity to show compliance with all requirements of the law for retention of the license.
2. Respondent waived notice and hearing, and consented to the entry of this Order.
3. Respondent is currently licensed to practice professional nursing in the State of Texas.
4. Respondent received a Baccalaureate Degree in Nursing from The University of Oklahoma, Norman, Oklahoma, on May 7, 1982. Respondent was licensed to practice professional nursing in the State of Oklahoma on September 24, 1982 and was licensed to practice professional nursing in the State of Texas on August 10, 2005.

5. Respondent's nursing employment history includes:

|                   |                                |   |
|-------------------|--------------------------------|---|
| 1982 - 1986       | Intensive Care<br>Charge Nurse | Baptist Medical Center<br>Oklahoma City, Oklahoma   |
| 1987 - 04/2005    | Not employed in Nursing        |   |
| 05/2005 - 07/2005 | Unknown                        |   |
| 08/2005 - 07/2006 | Intensive Care Nurse           | Presbyterian Hospital of<br>Dallas<br>Dallas, Texas |
| 08/2006 - 2006    | Unknown                        |   |
| 2007 - Present    | Registered Nurse               | Baylor Health Care System<br>Dallas, Texas          |

6. At the time of the initial incident, Respondent was employed as an Intensive Care Nurse with Presbyterian Hospital of Dallas, Dallas, Texas, and had been in this position for five (5) months.

7. On or about January 28, 2006, while employed with Presbyterian Hospital of Dallas, Dallas, Texas, Respondent failed to administer doses of Protonix and Unasyn which were scheduled at 6:00 p.m. to Patient Medical Record Number 390590, as required. The omission was not found until the next shift. Respondent's conduct was likely to injure the patient in that failure to administer medications as ordered by the physician could have resulted in non-efficacious treatment.

8. On or about February 18, 2006, while employed with Presbyterian Hospital of Dallas, Dallas, Texas, Respondent failed to complete neurological (neuro) checks every one (1) hour on a post craniotomy patient, Patient Medical Record Number 1195206, and monitor the patient's Increased Intracranial Pressure, as ordered by the physician. Respondent's conduct was likely to injure the patient due to incomplete assessment information needed in order to formulate clinical care decisions and prevent clinical complications.

9. On or about March 29, 2006, while employed with Presbyterian Hospital of Dallas, Dallas, Texas, Respondent failed to timely ensure that the Sequential Compression Device (SCD) was applied to Patient Medical Record Number 1267475, as ordered. Although the physician wrote the order at 1235, the SCD was not applied until more than six (6) hours later, at 1900, when Respondent's shift was nearing an end. Respondent's conduct was likely to injure the patient in that the delay of application of the compression device could have resulted in complications from blood clot formation in the lower extremities.

10. On or about May 24, 2006, while employed with Presbyterian Hospital of Dallas, Dallas, Texas, Respondent failed to document vital signs, vascular checks or surgical site status in

the medical record during an incident of pulsatile bleeding at the right 3<sup>rd</sup> toe amputation wound site of Patient Medical Record Number 1181152. Although the incident of bleeding occurred at 1735, no vital signs were documented until the next shift, at 1930. Respondent's conduct resulted in an incomplete medical record, and was likely to injure the patient in that subsequent care givers did not have accurate and complete information on which to base their decisions for further care.

11. On or about July 11, 2006, while employed with Presbyterian Hospital of Dallas, Dallas, Texas, Respondent failed to document in the medical record the status of the aforementioned Patient Medical Record Number 630917 from 0900 through the remainder of the shift, which ended at 1900. Respondent's conduct resulted in an incomplete medical record and was likely to injure the patient from clinical care decisions formulated based upon incomplete information.
12. In response to the incidents in Findings of Fact Numbers Seven (7) through Fourteen (14), Respondent states that she missed giving the Protonix and the Unasyn, that this was a missed medication error. According to Respondent, was a documentation oversight on her part not to document the neuro checks and ICP monitoring of Patient Medical Record Number 1195206. Respondent states she had delegated the task of assuring that Patient Medical Record Number 1267475 received the SCD to a Patient Care Tech (PCT). Respondent states further that she failed to follow up with the PCT, but that Central Supply did not bring the SCD sleeves up in a timely manner and that she was with a critically ill patient at the time who took priority. Respondent indicates that during the incident in which the patient experienced pulsatile bleeding, the patient was wearing a monitor which measured blood pressure, oxygen saturation, and heart activity with alarms, that no alarms sounded during this time, and that vital signs were available to physicians and next-shift nurses through the central monitor. Respondent continues, stating that she was not contacted regarding the missing information so she could correct her documentation.
13. On or about December 1, 2006, Respondent successfully completed a Board approved course in nursing documentation, which would have been a requirement of this Order.
14. On or about December 5, 2006, Respondent successfully completed a Board approved course in Texas nursing jurisprudence, which would have been a requirement of this Order.
15. On or about December 19, 2008, Respondent successfully completed a Board approved course in "Sharpening Critical Thinking Skills", which would have been a requirement of this Order.

#### CONCLUSIONS OF LAW

1. Pursuant to Texas Occupations Code, Sections 301.451-301.455, the Board has jurisdiction over this matter.
2. Notice was served in accordance with law.

3. The evidence received is sufficient to prove violation of Section 301.452(b)(10)&(13), Texas Occupations Code, and 22 TEX. ADMIN. CODE §§ 217.11(1)(A), (1)(B), (1)(C), (1)(D), (1)(M), (3)(A) & (3)(B) and 217.12(1)(A)(1)(B), (1)(C), (1)(F) & (4).
4. The evidence received is sufficient cause pursuant to Section 301.452(b), Texas Occupations Code, to take disciplinary action against Registered Nurse License Number 719912, heretofore issued to ELIZABETH GARRETT, including revocation of Respondent's license to practice nursing in the State of Texas.
