It was at this time that I was informed that I had warrants for bad checks. Even though the dates of the two allegations are approximately three years apart, this is the result of the courts' paperwork. Upon learning of the warrants, I promptly took care of the checks."
13. On or about February 5, 2007, Respondent submitted a Texas Online Renewal Document, Registered Nurse, to the Board of Nurse Examiners for the State of Texas, in which she provided false, deceptive, and/or misleading information, in that she answered "No" to the following question:

" Have you ever been convicted, placed on community supervision whether or not adjudicated guilty, sentenced to serve jail or prison time or granted pre-trial diversion, or plead guilty, no contest or nolo contendere to any crime in any state, territory or country, or received a court order whether or not a sentence was imposed, including any pending criminal charges or unresolved arrests whether or not on appeal (excluding minor Class C traffic violations)? This includes expunged offenses and deferred adjudications with or without a finding of guilt. Please not that

DUIs, DWIs, and PIs must be reported and are not considered minor traffic violations. One time minor in possession [MIP] or Minor in Consumption [MIC] does not need to be disclosed; therefore, you may answer "No." If you have two or more MIPs or MICs, you must answer "Yes." The use of Alcohol by a Registered Nurse, while subject to call or duty, could impair the nurse's ability to recognize subtle signs, symptoms or changes in the patient's condition, and could impair the nurse's ability to make rational, accurate, and appropriate assessments, judgments, and decisions regarding patient care, thereby placing the patient in potential danger.
15. In response to Finding of Fact Number Fourteen (14), Respondent states: "The hospital was conducting a fire drill. I tripped on a mat and I was given a Breathalyzer and a urine screen. The Breathalyzer registered 0.000, but the urine screen was positive. However, it had been approximately 15 hours since I ingested alcohol in my home, until I reported to work at the hospital."
16. The Board finds that there exists serious risks to public health and safety as a result of impaired nursing care due to intemperate use of controlled substances.
