In the Matter of Registered Nurse           §     AGREED  
License Number 716329 and                   §  
Vocational Nurse License Number 190631   §  
issued to CONNIE PAT WATSON           §     ORDER

On this day the Texas Board of Nursing, hereinafter referred to as the Board, considered the matter of CONNIE PAT WATSON, Registered Nurse License Number 716329, and Vocational Nurse License Number 190631, hereinafter referred to as Respondent.

Information received by the Board produced evidence that Respondent may have violated Section 301.452(b)(10)&(13), Texas Occupations Code. Respondent waived representation by counsel, informal proceedings, notice and hearing, and agreed to the entry of this Order offered on January 4, 2011, by Katherine A. Thomas, MN, RN, Executive Director, subject to ratification by the Board.

FINDINGS OF FACT

1. Prior to the institution of Agency proceedings, notice of the matters specified below in these Findings of Fact was served on Respondent and Respondent was given an opportunity to show compliance with all requirements of the law for retention of the license(s).
2. Respondent waived representation by counsel, informal proceedings, notice and hearing, and agreed to the entry of this Order.
3. Respondent is currently licensed to practice professional nursing in the State of Texas.
4. Respondent received a Certificate in Vocational Nursing from Northeast Texas Community College, Mt. Pleasant, Texas, on August 8, 2003. Respondent was licensed to practice vocational nursing in the State of Texas on September 24, 2003. Respondent received an Associate Degree in Nursing from Northeast Texas Community College, Mt. Pleasant, Texas, on June 7, 2005. Respondent was licensed to practice professional nursing in the State of Texas on June 9, 2005.

5. Respondent's nursing employment history includes:

08/03-07/04	LVN	East Texas Medical Center Tyler, Texas
07/05-09/08	RN	East Texas Medical Center Quitman, Texas
09/08-03/09	PRN RN	East Texas Medical Center Quitman, Texas
03/09-Present	Unknown	

6. At the time of the initial incidents in Findings of Fact Numbers Seven (7) and Nine (9), Respondent was employed as a Registered Nurse with East Texas Medical Center, Quitman, Texas, and had been in this position for approximately four (4) years and eight (8) months.
7. On or about March 26, 2009, while employed as a Registered Nurse, with East Texas Medical Center-Quitman, Quitman, Texas, Respondent refused a patient admission, shoved a chart at the charge nurse, and refused to help a patient to the restroom stating "the family can do it." Respondent's conduct was likely to injure patients and could have resulted in the patients not getting the care that they needed.
8. In Response to Finding of Fact Number Seven (7), Respondent states when she arrived at work on March 26, 2009, there were thirteen (13) patients, five (5) of which were assigned to her, another Registered Nurse (RN) had four (4) patients, and the Licensed Vocational Nurse (LVN) had four (4) patients. The RN discharged one (1) patient and transferred another. The LVN discharged two (2) patients, however, Respondent still had all five (5) of her assigned patients. Respondent states that an admission was not mentioned to her. Respondent states that she believes the charge nurse asked to see a copy of new orders and the chart on one of her patients, Respondent then handed the chart to her over her shoulder without turning around, the charge nurse then threw the chart down and walked out of the area. In response to refusing to help a patient to the restroom, Respondent states the patient needed to use the commode frequently, and while she was speaking with a physician, the unit clerk asked if the Respondent could assist her. Respondent responded with "right now I'm helping Dr. Waddleton, could you assist her for me?" The next time and all the other times, Respondent states, when the patient called for assistance she helped her and never stated "let the family help her."

9. On or about March 26, 2009, while employed as a Registered Nurse, with East Texas Medical Center-Quitman, Quitman, Texas, Respondent "pre-charted" her patients' medical records indicating assessments of her assigned patients at times that had not yet occurred and after she had left. Respondent "pre-charted" patients' Hourly Flow Sheets, and neurological assessments that include level of consciousness, stimulus response, touch response, pupils, eye movements, motor response and respirations, and signed responsibility of care. Respondent's conduct was deceiving and created an inaccurate medical record on which subsequent caregivers would rely on to provide ongoing medical care. Additionally, the conduct was likely to injure the patients and could have resulted in the patients not getting the care that they needed.
10. In Response to Finding of Fact Number Nine (9), Respondent states one of her patients had a Neurological check ordered every 2 hours, which started the day before and she had consistently scored a "29," which was the top possible score. Respondent states she had assessed the patient on three (3) different occasions that morning and determined she was indeed scoring a "29," and when she finally was able to start charting she filled in her chart up to current time and for the next two (2) or three (3) checks. Additionally, Respondent states she felt confident she was stable and if necessary could have corrected if the patient's condition changed.
