BEFORE THE TEXAS BOARD OF NURSING

In the Matter of Registered Nurse § AGREED
License Number 660203 §
issued to JANICE GAYLE SULLIVAN § ORDER

On this day the Texas Board of Nursing, hereinafter referred to as the Board, considered the matter of JANICE GAYLE SULLIVAN, Registered Nurse License Number 6602 hereinafter referred to as Respondent.

Information received by the Board produced evidence that Respondent may have violated Section 301.452(b)(10)&(13), Texas Occupations Code. Respondent waived representation by counsel, informal proceedings, notice and hearing, and agreed to the entry of this Order offered on December 1, 2010, by Katherine A. Thomas, MN, RN, Executive Director, subject to ratification by the Board.

FINDINGS OF FACT

1. Prior to the institution of Agency proceedings, notice of the matters specified below in these Findings of Fact was served on Respondent and Respondent was given an opportunity to show compliance with all requirements of the law for retention of the license(s).
2. Respondent waived representation by counsel, informal proceedings, notice and hearing, and agreed to the entry of this Order.
3. Respondent is currently licensed to practice professional nursing in the State of Texas.
4. Respondent received a Baccalaureate Degree in Nursing from Patty Hanks Shelton School of Nursing, Abilene, Texas, on May 1, 1999. Respondent was licensed to practice professional nursing in the State of Texas on June 8, 1999.
5. Respondent's nursing employment history includes:

1999 - 2001	Telemetry Nurse	Hendrick Medical Center Abilene, Texas
-------------	-----------------	---

Respondent's nursing employment history continued:

2001 - 2005	Weekend Supervisor	Mesa Springs Healthcare Center Abilene, Texas
2005	Home Health Nurse	Kinder Hearts Home Health Abilene, Texas
2005	Home Health Nurse	Hendrick Housecalls Abilene, Texas
07/2005 - 07/2008	Staff Nurse	Abilene Regional Medical Center Abilene, Texas
08/2008 - 02/2010	Campus RN Shift Supervisor	Abilene State School Abilene, Texas
03/2010 - Present	Unknown	

6. At the time of the initial incident, Respondent was employed as a Staff Nurse with Abilene Regional Medical Center, Abilene, Texas, and had been in this position for three (3) years.
7. On or about July 4, 2008, while employed with Abilene Regional Medical Center, Abilene, Texas, Respondent failed to notify the physician of the change in condition of Patient Medical Record Number 368561 when the patient began having brown/black emesis. Instead, Respondent exceeded her scope of practice by inserting a nasogastric tube without consulting a physician or obtaining a physicians' order for the tube. Respondent's conduct was likely to injure the patient from possible medical complications and lack of physicians' expertise.
8. On or about October 28, 2009, through October 29, 2009, while employed with Abilene State Supported Living Center, Abilene, Texas, and acting as charge nurse in the infirmary, Respondent failed to notify and/or ensure the physician was notified when Respondent found "a small amount of red tinged liquid in the nasogastric (NG) tube of Patient MM. Later, Patient MM became more restless and his respirations increased from forty (40) to sixty (60). Respondent then contacted the physician who ordered the patient sent to the hospital, where the patient subsequently expired. Respondent's conduct may have contributed to the patient's demise.
9. In response to the incidents in Findings of Fact Numbers Seven (7) and Eight (8), Respondent states that while she was caring for Patient Medical Record Number 368561, she had called the physician a couple of days earlier regarding another patient and the physician became very agitated. The physician's agitation escalated through the week. Respondent believes she was singled out and terminated due to the physician's threats to

move his practice. While caring for Patient MM, Respondent called the physician and the physician was aware of the condition of the patient and ordered a nasogastric (NG) tube for the patient. Respondent assigned the patient to another RN, the NG tube was put down with return of foul brown liquid. The patient remained very active and required one to one supervision. The patient pulled his intravenous (IV) catheter out. Around 0400, Respondent was informed that the IV had been re-started and from the nurses' station could still hear Patient MM in the other room. The patient had significant changes at 0500 and that is when Respondent called the physician and the patient was sent to the hospital.

CONCLUSIONS OF LAW

1. Pursuant to Texas Occupations Code, Sections 301.451-301.555, the Board has jurisdiction over this matter.
2. Notice was served in accordance with law.
