

Respondent's nursing employment history continued:

06/2010 - Unknown	RN Clinical Coordinator Emergency Department	University Medical Center of El Paso El Paso, Texas
-------------------	---	---

6. At the time of the initial incident, Respondent was employed as a Telemetry/CCU Staff Nurse with Sierra Medical Center, El Paso, Texas, and had been in this position for two (2) years and seven (7) months.
7. On or about February 26, 2008, while employed with Sierra Medical Center, El Paso, Texas, Respondent failed to assess complete vital signs, including temperature of Patient Medical Record Number 391193, as required. The patient had come into the emergency room unresponsive with a blood sugar of thirty-nine (39). Upon transfer to the medical floor, the temperature taken by the admitting nurse was 91.0F. The patient was immediately transferred to the Intensive Care Unit where the temperature was 90.0F. Respondent's conduct was likely to injure the patient in that the patient could have suffered the complications of hypothermia, including possible demise.
8. In response to the incident in Finding of Fact Seven (7), Respondent states that when the patient was brought into the Emergency Department, EMS had been unable to establish an intravenous line (IV) to administer D50 and this was Respondent's main priority. Every vital sign was recorded every hour except for temperature. After this incident, Respondent held in-services for ED staff regarding Sierra Medical Centers vital sign policy and procedure. Respondent is now clinical coordinator in a level one trauma center.
