

Respondent's professional nursing employment history continued:

08/08 - 04/09                      RN                      Christus Spohn Hospital  
Corpus Christi, Texas

05/09 - Present                      Unknown

6. At the time of the initial incident, Respondent was employed as a Registered Nurse with Christus Spohn Hospital, Corpus Christi, Texas, and had been in this position for six (6) months.
7. On or about February 2, 2009, while employed with Christus Spohn Hospital, Corpus Christi, Texas, Respondent failed to administer Androgel to Patient Medical Record Number SH00088660, as ordered by the physician. Additionally, Respondent erroneously documented that he administered said medication in the patient's medication administration record (MAR). Respondent's conduct created an inaccurate medical record and may have injured the patient in that failing to administer medications as ordered by the physician could result in non-efficacious treatment.
8. In response to the incident in Finding of Fact Number Seven (7), Respondent states:  
  
"I administered my medications to him at 0900, and realized after the fact that the Androgel was in the central pharmacy... I had already signed the Medication Administration Record (MAR), which was a bad habit I picked up from my preceptor that I was trying to break. During this time...I had many physicians rounding, and the gel slipped my mind in the fray of what was going on with the patient. I had every intention of going to get the Schedule III drug from the central pharmacy, but...I never had the opportunity."
9. On or about February 12, 2009, while employed with Christus Spohn Hospital, Corpus Christi, Texas, Respondent failed to administer scheduled 0900 medications to Patient Medical Record Number SH00085923, who was transferring from ICU to a telemetry unit. Respondent's conduct may have injured the patient in that failing to administer medications as ordered by the physician could result in non-efficacious treatment.
10. In response to the incident in Finding of Fact Number Nine (9), Respondent states that he was asked by the assistant manager if he would take a triple assignment so that another RN could take an admission. Respondent states that the RN gave him a truncated report at around 1030 and told him that everything had been done for the patient and all he had to do was "babysit" until the patient got transferred. Respondent states that 30 minutes after the patient was transferred, the accepting nurse called and stated that the patient's 0900 medications had not been administered. Respondent acknowledges that it was his responsibility to make sure that everything had been done when he received the patient.
