6. At the time of the initial incident, Respondent was employed as a Staff Nurse with Mesa Springs/Hendrick Health Care Center, Abilene, Texas, and had been in this position for one (1) year and four (4) months.
7. On or about June 30, 2007, while employed with Mesa Springs/Hendrick Health Care Center, Abilene, Texas, Respondent administered medication for indigestion to Patient Medical Record Number 200737 without a physicians' order or contacting the physician. Respondent's conduct was likely to injure the patient in that administration of medication without physicians' knowledge or order could result in the patient suffering adverse reactions.
8. On or about July 1, 2007, while employed with Mesa Springs/Hendrick Health Care Center, Abilene, Texas, Respondent failed to contact a physician regarding the aforementioned Patient Medical Record Number 200737 having a fever of 101.7 even though the patient was receiving an antibiotic treatment at that time. The patient was subsequently sent to the hospital and later expired. Respondent's conduct may have contributed to the patient's demise.

9. On or about July 2, 2007, while employed with Mesa Springs/Hendrick Health Care Center, Abilene, Texas, Respondent failed to reassess and/or document reassessment and intervene when the aforementioned Patient Medical Record Number 200737 exhibited shortness of breath, wheezing, elevated respirations and decreased oxygen saturation. The patient was sent to the hospital and subsequently expired approximately twelve (12) hours later. Respondent's conduct may have contributed to the patient's demise.
10. In response to the incidents in Findings of Fact Numbers Seven (7) through Nine (9), Respondent admits that she did administer Tums to the patient even though she had no physicians' order for them. Respondent states that when she received report from the day nurse on July 1, 2007, it was reported that this patient had had a good day, "even though he'd stayed in bed most of the day." Respondent states she sent a fax to the physician's office explaining the patient's condition so that the physician could come to the facility on Monday (July 2, 2007) to see the patient. Respondent states that the employees there were over-worked.
