7. On or about August 29, 2006, while employed with The Devereux Foundation, Victoria, Texas, Respondent exercised excessive force and an unauthorized restraint on Patient Medical Record Number 93405. He states that patient then exposed himself to Respondent and grabbed Respondent's buttocks, and he again told the patient to stop. Respondent states that no other staff intervened. Respondent states that he went to the nurses' station a few seconds later to get a report and the patient came up to the door. Respondent states that the outgoing nurse told the patient to leave several times but the patient refused. Respondent states that the patient was trying to push the door and Respondent closed the bottom latch with his foot. Respondent states that as he turned around the patient proceeded to climb over the locked bottom half of the door. Respondent states that he proceeded to close the top of the door but the patient pushed it back and hit Respondent in the face, breaking his glasses. Respondent states that in his judgment, to keep the patient's behavior from escalating and further hurting himself or somebody else, his last resort was to hold him down until the patient was calm. Respondent states that he was able to hold him from behind with both his arms on his side and Respondent's arms across the patient's chest. Respondent states that three staff came in and they all took the patient down to the floor. Respondent states that a few minutes later the patient said he would not hit anybody anymore and won't be disruptive. Respondent states that they took the patient to the quiet area for a few minutes.
