In the Matter of Registered Nurse License Number 718312     §     AGREED  
issued to TRACI MICHELE MUDD                                     §     ORDER

On this day the Texas Board of Nursing, hereinafter referred to as the Board, considered the matter of TRACI MICHELE MUDD, Registered Nurse License Number 718312, hereinafter referred to as Respondent.

Information received by the Board produced evidence that Respondent may have violated Section 301.452(b)(10), Texas Occupations Code. Respondent waived representation by counsel, informal conference, notice and hearing, and agreed to the entry of this Order offered on December 3, 2007, by Katherine A. Thomas, MN, RN, Executive Director, subject to ratification by the Board.

FINDINGS OF FACT

1. Prior to the institution of Agency proceedings, notice of the matters specified below in these Findings of Fact was served on Respondent and Respondent was given an opportunity to show compliance with all requirements of the law for retention of the license.
2. Respondent waived representation by counsel, informal conference, notice and hearing, and agreed to the entry of this Order.
3. Respondent is currently licensed to practice professional nursing in the State of Texas.
4. Respondent received an Associate Degree in Nursing from San Jacinto College, Pasadena, Texas, on May 5, 2005. Respondent was licensed to practice professional nursing in the State of Texas on July 5, 2005.
5. Respondent's professional nursing employment history includes:

08/05 - 03/06

RN

San Jacinto Methodist Hospital  
Baytown, Texas

Respondent's professional nursing employment history (continued):

04/06 - Present

Unknown

6. At the time of the incident, Respondent was employed as a Registered Nurse with San Jacinto Methodist Hospital, Baytown, Texas, and had been in this position for approximately seven (7) months and twenty-one (21) days.
7. On or about March 21, 2006 through March 22, 2006, while employed as a Registered Nurse with San Jacinto Methodist Hospital, Baytown, Texas, Respondent lacked fitness to practice professional nursing in that she left her unit several times, and when she returned her speech was boisterous, slurred and rambling; her demeanor was excited and she was crying on and off; she had difficulty concentrating and she was making bizarre statements; her nose appeared red; her eyes were bloodshot and dilated; and her face was very pale. Furthermore Respondent agreed to submit to a "for cause" drug screen requested by the staff at San Jacinto Methodist Hospital, Baytown, Texas, but later declined the drug screen, and stated that she did not complete the drug screen, because "it would have been positive and I was scared." Respondent's condition could have affected her ability to recognize subtle signs, symptoms or changes in patients' conditions, and could have affected her ability to make rational, accurate, and appropriate assessments, judgements, and decisions regarding patient care, thereby placing the patients in potential danger.
8. In response to Finding of Fact Number Seven (7), Respondent states: Her father died unexpectedly on September 10, 2003. Barely nine months later, she lost her grandmother who passed in June of 2004. In November 2005, she lost her 14 year-old nephew, without any prior illness or warning. As if the tragedy was not enough, in December 2005, she lost her best friend. Thereafter, her primary family support (her mother) fell and broke her hip and was incapacitated between December 2005 and March 2006, and went through multiple surgeries due to complications from an earlier surgery done after she fell. Her mother had helped her care for her young daughter, but could no longer continue due to her debilitating condition. With all the grief and current loss of support, she was overwhelmed and stressed. She specifically told her supervisors at San Jacinto Methodist Hospital that she was grieving and going through a difficult time in her life.  
  
She did agree to submit to a drug test, because she knew she was not on drugs or impaired. She was scared that for her to be subjected to a drug screen may mean that the employer had decided to terminate her employment (regardless of the result of the drug test). This fear she expressed may have been misconstrued or misinterpreted. Respondent indicated that she did not tell her employer that the drug screen would come back positive.
9. The Board finds that there exists serious risks to public health and safety as a result of impaired nursing care due to intemperate use of controlled substances or chemical dependency.

10. Formal Charges were filed on September 21, 2007.
11. Formal Charges were mailed to Respondent on September 25, 2007.

### CONCLUSIONS OF LAW

1. Pursuant to Texas Occupations Code, Sections 301.451-301.555, the Board has jurisdiction over this matter.
2. Notice was served in accordance with law.
3. The evidence received is sufficient to prove violation of Section 301.452(b)(10), Texas Occupations Code, and 22 TEX. ADMIN. CODE §217.12(1)(B)&(E)&(5).
4. The evidence received is sufficient cause pursuant to Section 301.452(b), Texas Occupations Code, to take disciplinary action against Registered Nurse License Number 718312, heretofore issued to TRACI MICHELE MUDD, including revocation of Respondent's license to practice professional nursing in the State of Texas.
