

6. On or about February 6, 2008, Respondent submitted a License Renewal Form for Licensed Vocational Nurses to the Texas Board of Nursing. On the Renewal, Respondent answered "Yes" to the question: "Has any licensing authority refused to issue you a license or ever revoked, annulled, cancelled, accepted surrender of, suspended, placed on probation, refused to renew a nursing license, certificate, or multi-state privilege held by you now or previously, or ever fined, censured, reprimanded, or otherwise disciplined you?"

On or about April 4, 2003, Respondent's license to practice vocational nursing in the State of California was REVOKED by the California Board of Nursing. A copy of the California Board of Nursing Order, dated April 4, 2003, is attached and incorporated, by reference, as part of this Order.

7. A Forensic Psychiatric Evaluation with a Chemical Dependency and Polygraph component was completed on April 4, 2009, by Dr. Troy Martinez, Psy.D. Dr. Martinez found that Respondent demonstrates a history of amphetamine dependence now in full remission for the past eight (8) years and there was no indication of problems with illicit drugs with at least the past five (5) years. Further, based on the results of the evaluation, Dr. Martinez feels that:

After reviewing Board Rules in detail, and *contingent upon her continued abstinence from drug abuse*, I believe Ms. Botello is capable of conducting herself in accordance with the requirements of Rules 213.27 - 213.29 at 22 TAC. I believe she is capable of consistently behaving in accordance with the minimal standards set by the Board's Rules 217.11 at 22 TAC. I believe she would be able to consistently behave in accordance with generally accepted nursing standards and consistently be able to avoid behaviors identified as constituting unprofessional misconduct. No treatment recommendations are being offered.
