As a result of the plea, the proceedings against Respondent were Deferred without entering an adjudication of guilt, and Respondent was placed on probation for a period of four (4) years. Additionally, Respondent was ordered to pay a five hundred dollar (\$500.00) fine and two hundred and forty-six dollars (\$246.00) in court costs.

8. 11. On or about August 11, 2003, Respondent entered a plea of Guilty to Driving While Intoxicated 2nd (a class A Misdemeanor committed on May 9, 2009), in the County Court at Law No. 3, Collin County, Texas, under Cause Number 003-83215-03. Respondent was ordered to serve seventy-two (72) hours of confinement, eighteen(18) months probation, and pay a four hundred dollar (\$400.00) fine. Additionally, Respondent was ordered not to operate any motor vehicle without a properly functioning, un-bypassed deep lung device.

12. On November 26, 2008, Respondent was seen by John Lehman Ph.D to undergo a forensic psychological evaluation to include a chemical dependency and polygraph examination.

Dr John Lehman States: " Ronnine Davis is a 32 year old female referred by TBN for an evaluation when it became clear on a criminal background check that she did not report several arrests. Specifically, she did not report 2 DWI arrests and a forgery arrest that occurred before her initial licensing and an additional DWI from 2003 after she was licensed. These were all several years ago, but she continues to drink and drove under the influence of alcohol as recently as 1/08 and about 15 times total from 1/07 until 1/08. Prior to 2007 she had a Breathalyzer in her vehicle for at least 18 months. There does not appear to be any use of illegal drugs in the past five years or any other criminal behavior. I do not believe there are any concerns about other types of criminal behavior such as the forgery earlier in her life. She drinks to the point of intoxication about once every two weeks, and it appears there is some binge drinking happening. Overall, I think there are sufficient indicators to diagnose a chemical dependency. I told her that she needed to quit drinking and talk with the Board about entering TPAPN. At the end of the second interview, it was unclear if she was going to follow that recommendation. She is in substantial denial about her issues.

1. Ms. Davis has an alcohol dependency issue that is unresolved. She is a binge drinker. She has repeatedly driving intoxicated even after three arrest. She has driven intoxicated about fifteen times between 1/07-1/08.

I believe she is only fit to practice as a nurse if she abstains from alcohol and enters treatment/supervision through TPAPN, or under similar conditions. I strongly encouraged her to talk with the Board about entering TPAPN. If she is in the TPAPN program and abstains from alcohol, I believe she will be able to practice safely. At present she is not in a direct care position.

2. She is in substantial denial about her alcohol issues and the impact of numerous issues in her life. She would benefit from counseling to address some of these, but is not particularly good candidate because of her denial. She would benefit by learning coping skills other than repression and denial.

Polygraph - Stacy Shortes examiner states that " Nationally standardized scoring procedures were utilized to evaluate the examination chart data. This evaluation process resulted in a finding of No Deception Indicated. Ms. Davis' answers to the above listed relevant questions are truthful."

14. The Respondent's conduct described in the preceding Findings of Fact was reportable under the provisions of Sections 301.401-301.419, Texas Occupations Code.

15. The Board finds that there exists serious risks to public health and safety as a result of intemperate use of controlled substances or chemical dependency.
16. Respondent's conduct described in Findings of Fact Numbers Six (6) through Twelve (12) resulted from Respondent's impairment by dependency on chemicals.
17. Respondent's compliance with the terms of a Board approved peer assistance program should be sufficient to protect patients and the public.
