Information received by the Board produced evidence that Respondent may have violated Section 301.452(b)(1),(10)&(13), Texas Occupations Code. Respondent waived informal proceedings, notice and hearing, and agreed to the entry of this Order offered on May 20, 2012, by Katherine A. Thomas, MN, RN, FAAN, Executive Director, subject to ratification by the Board.

FINDINGS OF FACT

1. Prior to the institution of Agency proceedings, notice of the matters specified below in these Findings of Fact was served on Respondent and Respondent was given an opportunity to show compliance with all requirements of the law for retention of the license(s).

6. On or about December 14, 2010, Respondent's licenses to practice nursing in the State of Texas were suspended through an Agreed Order by the Board. A copy of the the Findings of Fact, Conclusions of Law, and Agreed Order dated December 14, 2010, is attached and incorporated herein by reference as part of this Order.
7. On or about December 14, 2010, through March 20, 2011, while practicing as a Nurse Midwife with the Bay Area Birth Center, Pasadena, Texas, Respondent failed to comply with the Agreed Order issued to her by the Board on December 14, 2010, in that Respondent continued to provide care to fifty-eight (58) patients while her licenses had been suspended by the Agreed Order. Respondent's conduct was likely to deceive patients and the public into believing that she was authorized to practice as a nurse midwife.
8. On or about December 14, 2010, through the December 29, 2011, while practicing as a Nurse Midwife with the Bay Area Birth Center, Pasadena, Texas, Respondent further failed to comply with the Agreed Order issued to her on December 14, 2010, by the Board.  - (9) For the first year of employment as a Certified Nurse Midwife under this Order, RESPONDENT SHALL be directly supervised by Patricia A. Jones, RN, Certified Nurse Midwife. Jones, RN, Certified Nurse Midwife. Respondent's conduct was likely to deceive patients and the public.
9. Formal Charges were filed and mailed to Respondent at her address of record on March 9, 2012.
10. In response to the incident in Finding of Fact Number Seven (7), Respondent admits that she mistakenly continued working while under the terms of the enforced suspension because she was under the mistaken impression that it was a probated suspension. According to Respondent, she practiced under the supervision of the Certified Nurse Midwife specified in the Agreed Order and made all care decisions with the consultation and involvement of the supervising Certified Nurse Midwife.

CONCLUSIONS OF LAW

2. Notice was served in accordance with law.

BEFORE THE TEXAS BOARD OF NURSING

In the Matter of § AGREED
Registered Nurse License Number 601019 §
& Vocational Nurse License Number 83013 §
issued to JACQUELYN CHLO GRIGGS § ORDER

An investigation by the Texas Board of Nursing, hereinafter referred to as the Board, produced evidence indicating that JACQUELYN CHLO GRIGGS, hereinafter referred to as Respondent, Registered Nurse License Number 601019 and Vocational Nurse License Number 83013, may have violated Section 301.452(b)(10)&(13), Texas Occupations Code.

An informal conference was held on August 28, 2007, at the office of the Texas Board of Nursing, in accordance with Section 301.464 of the Texas Occupations Code.

Respondent appeared in person. Respondent was represented by William Hopkins, Attorney at Law. In attendance were Katherine A. Thomas, MN, RN, Executive Director; Victoria Cox, Assistant General Counsel; Anthony L. Diggs, MSCJ, Director, Enforcement Division; Mike Abul-Saud, RN, Investigator; and J. L. Skylar Caddell, RN,C, Lead Investigator. The conduct outlined in Findings of Fact Numbers Seven (7) through Twelve (12) below were discussed during said informal conference. The conduct outlined in Findings of Fact Numbers Sixteen (16) through Eighteen (18) occurred after the aforementioned informal conference.

FINDINGS OF FACT

1. Prior to the institution of Agency proceedings, notice of the matters specified below in these Findings of Fact was served on Respondent and Respondent was given an opportunity to show compliance with all requirements of the law for retention of the license.
2. Respondent waived notice and hearing, and consented to the entry of this Order.

3. Respondent is currently licensed to practice professional nursing in the State of Texas. Respondent's license to practice vocational nursing in the State of Texas is currently in "delinquent" status.

4. Respondent received a Certificate in Vocational Nursing on August 17, 1979; received an Associate Degree in Nursing from San Jacinto College, Pasadena, Texas on December 17, 1993; and received a Certificate from The University of Texas Medical Branch School of Nurse Midwifery, Galveston, Texas on April 27, 2001. Respondent was licensed to practice vocational nursing in the State of Texas on October 16, 1979; was licensed to practice professional nursing in the State of Texas on March 15, 1994; became Board recognized as a Nurse Midwife in the State of Texas on July 29, 2002; and became Board recognized with Prescriptive Authority as a Nurse Midwife in the State of Texas on November 18, 2002.

5. Respondent's nursing employment history includes:

10/1979 - 1981	Staff Nurse, LVN	Planned Parenthood Houston, Texas
1981 - 1984	LVN Office Nurse & Manager	Jay T. Rahu, MD Anchorage, Alaska
1984 - 1986	LVN Staff Nurse, Labor & Delivery	Coronado Community Hospital Pampa, Texas
1986 - 1987	LVN Staff Nurse, Thoracic Surgery	St. Anthony's Hospital Amarillo, Texas
1988 - 1989	Unknown	
1990 - 1994	Staff Nurse, LVN/RN Lay Midwife	Pasadena Midwives Birth Center Pasadena, Texas
1994 - 2005	RN Owner, Lactation Consultant, Nurse Midwife	Gentle Care Midwifery Services Houston, Texas
07/2001 - Unknown	Adjunct Professor	San Jacinto College South Nursing Program Houston, Texas
12/2001 - Unknown	Nurse Midwife	Doctor's Hospital Houston, Texas
2005 - Present	Nurse Midwife Owner/Director	Bay Area Birth Center Pasadena, Texas

6. At the time of the initial incident in Finding of Fact Number Seven (7), Respondent was employed as the Nurse Midwife Owner/Director of Bay Area Birth Center, Pasadena, Texas, and had been in this position for less than one (1) year.
7. On or about September 1, 2005, through July 14, 2006, while employed as the Nurse Midwife Owner/Director of Bay Area Birth Center, Pasadena, Texas, Respondent failed to appropriately complete detailed Risk Assessments of patients' family histories and risk factors regarding their pregnancies. Although Respondent completed detailed family histories, the Risk Assessment forms Respondent documented did not include or identify a complete set of relevant pregnancy risk factors, and did not include any plans or interventions for risk factors that were identified. Respondent's conduct was likely to injure patients and their developing fetuses from possible complications due to undetected risk factors.
8. On or about November 23, 2005, through July 9, 2006, while employed as the Nurse Midwife Owner/Director of Bay Area Birth Center, Pasadena, Texas, Respondent failed to create and maintain appropriate and complete medical plans of care for patients at risk for complicated, abnormal pregnancies, including patients at increased risk for uterine rupture due to previous Cesarean sections, as follows:
 - November 23, 2005, through June 20, 2006, for Patient Number 05250601;
 - December 8, 2005, through July 9, 2006, for Patient Number 07090601; and
 - June 15, 2006, through July 9, 2006, for Patient Number 07150601.Respondent's conduct was likely to injure patients, including their developing fetuses, from medical care based upon information derived from incomplete and/or inappropriate plans of care.
9. On or about July 9, 2006, while employed as the Nurse Midwife Owner/Director of Bay Area Birth Center, Pasadena, Texas, Respondent failed to call 911 in order to use an emergency services equipped vehicle, as appropriate and according to the facility's policy, to transport the aforementioned Patient Number 07090601 to a nearby emergency center after the patient's labor failed for more than five (5) hours to progress toward delivery of the second of her twins. Instead, Respondent transported the patient using a private vehicle. Respondent's conduct was likely to injure the patient and her unborn baby from possible complications occurring while en route and while without equipment necessary to manage the patient's care.
10. On or about July 14, 2006, through July 15, 2006, while employed as the Nurse Midwife Owner/Director of Bay Area Birth Center, Pasadena, Texas, Respondent failed to assess and monitor the vital signs periodically, as well as perform vaginal examinations, of the aforementioned Patient Number 07150601 while the patient remained in the facility overnight waiting to see if her irregular contractions would progress toward active labor. The patient had undergone a previous Cesarean section due to placental abruption the year before, which increases the risk of uterine rupture during subsequent pregnancies or labor. Nine (9) hours and thirty (30) minutes after arriving at the facility, Respondent heard the patient moaning and complaining of being very uncomfortable. When Respondent checked the

patient's fetal heart rate, she found that it was at a critical rate of 74, after having been 130 - 150 earlier. Although Respondent immediately began to administer oxygen to the patient, she failed to call 911 in order to use an emergency services equipped vehicle, as appropriate and according to the facility's policy, to transport the patient to a nearby emergency center. Instead, Respondent transported the patient using a private vehicle. After an emergency Cesarean section was performed, the baby was delivered stillborn and it was determined that the patient had suffered a uterine rupture. Respondent's conduct may have contributed to the patient suffering a uterine rupture and to the baby's demise.

11. On or about August 16, 2006, Respondent, as Administrator of Bay Area Birth Center, Pasadena, Texas, entered into an Agreed Order with the Department of State Health Services (DSHS), which found that from on or about February 15, 2006, through March 29, 2006, Bay Area Birth Center, Pasadena, Texas, established and engaged in the business of providing birthing center services without holding an appropriate Department-issued license as a birthing center. A copy of the Agreed Order, dated August 16, 2006, is attached and incorporated herein by reference as part of this Order. Respondent's conduct mislead patients and the public.
12. In response to the incidents in Findings of Facts Numbers Seven (7) through Eleven (11), Respondent states that each patient had the standard plan of care for abnormal pregnancies, but admits that she did not create and maintain an appropriate plan of care for Patient Number 07150601 because of Respondent's late involvement in the patient's care. Respondent states that she is now more diligent in questioning and documenting previous health issues, and that she no longer accepts as patients pregnant women who have previously undergone a Cesarean section. Additionally, Respondent states that as a result of the incident involving Patient Number 07150601, the risk assessment forms used by the facility have been completely revised and have been completed for all patients, and that her "Vaginal Birth After Caesarean" protocols have been updated. Regarding the Agreed Order with DSHS, Respondent states the matter arose after she filed the initial application for licensure as a birthing center and DSHS did not immediately complete an initial survey visit. Once the survey was completed, DSHS made the initial licensure date retroactive back to March 1, 2006; however, Respondent states she had provided birthing center care to some patients prior to the actual license being issued. Regarding Patient Number 07090601, Respondent states that the option of calling 911 was raised, but because the patient was not in a critical situation and because the hospital was only three blocks away, she decided that the patient could be safely transported via private car. Respondent states that the second infant was delivered with no health problems soon after arrival at the hospital. Regarding the July 14, 2006, through July 15, 2006, incident with Patient Number, Respondent states that the patient arrived without ruptured membranes and was still a week before her due date. After the patient's husband asked if they could rest in one of the birth rooms, Respondent states she agreed and then left them alone, while resting herself in an adjacent room so that she could listen for sounds of unusual activity. Once Respondent realized there was a problem, she states she realized that using a private vehicle would prevent the use of a fetal monitor during transport, but believed it was still the best option considering the amount of fetal distress that was already present.

13. On or about February 14, 2007, Respondent successfully completed the course, "2007 Texas Nursing Law," a five (5) contact hour course provided by Southwest Seminars Association, Inc., Houston, Texas.
14. Formal Charges were filed on November 19, 2007.
15. Formal Charges were mailed to Respondent at her address of record on November 19, 2007.
16. On or about January 6, 2008, while employed as the Nurse Midwife Owner/Director of Bay Area Birth Center, Pasadena, Texas, Respondent failed to timely transport Patient AV, who had a history of retained placenta from a previous delivery, to an emergency care center after the patient delivered a viable female neonate but did not deliver the placenta, which should occur within thirty (30) to forty-five (45) minutes. Instead, Respondent delayed for more than ninety (90) minutes while documenting that the patient had both minimal bleeding in one part of the medical record and moderate bleeding during the same time in another part of the medical record. Emergency Medical Services noted that the patient had heavy bleeding upon their arrival to transport the patient, and upon arrival at a local emergency department, the patient had lost an estimated 500 cc of blood. The patient required surgical removal of the placenta and was discharged two (2) days later. Respondent's conduct was likely to injure the patient from complications of bleeding and retained placenta, including shock, inversion of the uterus, and possible demise.
17. On or about May 3, 2008, while employed as the Nurse Midwife Owner/Director of Bay Area Birth Center, Pasadena, Texas, Respondent failed to timely transport the newly delivered infant of Patient MS to an emergency care center when Respondent suctioned the infant and obtained 6 cc of meconium stained fluid nine (9) minutes after the infant was delivered with blue extremities and weak cry. During the next eighty-five (85) minutes, the infant continued to show signs of respiratory distress and was unable to maintain a blood oxygen level of more than 76% even with supplemental oxygen before Respondent called for an ambulance. The infant was admitted to the Neonatal Intensive Care Unit of a local hospital, diagnosed with respiratory failure and aspiration pneumonia, and subsequently recovered. Respondent's conduct was likely to injure the infant from complications of low blood oxygen, including possible brain damage and/or demise.
18. In response to the incidents in Findings of Fact Numbers Sixteen (16) and Seventeen (17), Respondent states that "Obviously, transferring of a patient to the hospital is a last resort and both the patient and I try to avoid it as much as possible. According to Respondent, Patient AV was appropriately screened before the delivery and that according to her policies and protocols, the patient was transferred at the appropriate time. Respondent indicates that she subsequently notified the patient she would be unable to provide her future birthing center services due to the patient's predisposition for retained placenta. Regarding the infant of Patient MS, Respondent admits that in hindsight, if she had to do it over again, she would probably have transferred the infant a bit sooner while stating her belief that her decision to wait was not wrong, that the time frame was appropriate, and that at the time it seemed reasonable to give the infant a chance to transition, adjust, and respond."
