 - k. Failed to transcribe an order to administer Synthroid 100mg in the patient's medical on or about October 26, 2010, resulting in the patient not receiving the medication;
 - l. Failed to administered Temazepam to a patient as ordered, on or about October 11, 2010;

Respondent's failure to completely and accurately transcribe physician's orders was likely to injure patients in that it created an inaccurate and incomplete medical record on which subsequent caregivers would rely on to provide ongoing medical care. Additionally, Respondent's failure to administer medications as ordered was likely to injure patients in that it could have resulted in nonefficacious treatment.

18. In response to Finding of Fact Number Seven (7), Respondent admits that he was arrested but adds that he paid all fines and fulfilled all of his obligations. Respondent states that he answered "no" on the question regarding pending arrests and pending criminal charges and admits that this was a mistake in judgment on his part. Respondent adds that he was trying to avoid a delay in the license renewal process so as not to cause a problem with his job and states that his attorney led him to believe that the possession charge may be dropped. In response to Findings of Fact Numbers Eight (8) through Sixteen (16), Respondent admits that he does not have any documentation to show compliance with the Order. Respondent adds that he has been unable to receive unemployment benefits and unable to get any type of employment due to the arrest that appeared on his record. In response to Finding of Fact Number Seventeen (17), Respondent states that all of these allegations were made after the

June 19, 2010 arrest. Respondent asserts that during the three month period in which all but two of the allegations occurred, there had never been any concern expressed to him that he was falsifying records to obtain narcotics and adds that he was randomly screened 4 or 5 times and never had a positive drug screen. Respondent contends that the accumulation of these errors and conduct infractions appear to be a contrived effort on the part of the hospital to produce "reason" for termination to avoid the real issue, which was the arrest. Respondent asserts that since this job ended he has been in limbo and not able to apply for nursing positions due to the unsure status of his license.

19. Respondent, by his signature to this Order, expresses his desire to voluntarily surrender his license(s) to practice nursing in the State of Texas.
