8. On or about September 2004, through January 2005, while employed as a Registered Nurse with The Heart Hospital of Northwest Texas, Amarillo, Texas, Respondent engaged in the intemperate use of Hydrocodone in that Respondent admitted to the misappropriation due to being dependent and subsequently addicted to Hydrocodone. Possession of Hydrocodone is prohibited by Chapter 481 of the Texas Health & Safety Code (Controlled Substances Act). The use of Hydrocodone by a Registered Nurse, while subject to call or duty, could impair the nurse's ability to recognize subtle signs, symptoms or changes in the patient's condition, and could impair the nurse's ability to make rational, accurate, and appropriate assessments, judgments, and decisions regarding patient care, thereby placing the patient in potential danger.
9. On or about August 12, 2005, Respondent entered a plea of Guilty to a LESSER INCLUDED OFFENSE OF THEFT (a Class A misdemeanor offense), entered in the 181st District Court of Potter County, Texas, under Cause No. 50,505-B. As a result of the Guilty plea, the proceedings against Respondent were deferred without entering an adjudication of guilt, and Respondent was placed on probation for a period of two (2) years. Additionally, Respondent was ordered to pay a fine and court costs.

10. On or about August 2, 2005, while participating in the Texas Peer Assistance Program for Nurses (TPAPN) Respondent engaged in the intemperate use of Tramadol in that Respondent produced a specimen for a random drug screen which resulted positive for Tramadol. Possession of Tramadol is prohibited by Chapter 481 of the Texas Health & Safety Code (Controlled Substances Act). The use of Tramadol by a Registered Nurse, while subject to call or duty, could impair the nurse's ability to recognize subtle signs, symptoms or changes in the patient's condition, and could impair the nurse's ability to make rational, accurate, and appropriate assessments, judgments, and decisions regarding patient care, thereby placing the patient in potential danger.
11. On or about September 6, 2006, while participating in TPAPN, Respondent engaged in the intemperate use of Alcohol in that Respondent produced a specimen for a random drug screen which resulted positive for Alcohol. The use of Alcohol by a Registered Nurse, while subject to call or duty, could impair the nurse's ability to recognize subtle signs, symptoms or changes in the patient's condition, and could impair the nurse's ability to make rational, accurate, and appropriate assessments, judgments, and decisions regarding patient care, thereby placing the patient in potential danger.
12. At the time of the incident in Findings of Fact Numbers Thirteen (13) and Fourteen (14), Respondent was employed as a Registered Nurse with Tyson Fresh Meats, Amarillo, Texas, and had been in this position for one (1) year.
13. On or about April 16, 2009, while employed as a Registered Nurse with Tyson Fresh Meats, Amarillo, Texas, Respondent lacked fitness to practice professional nursing in that he smelled of Alcohol while on duty. Respondent's condition could have affected his ability to recognize subtle signs, symptoms or changes in patients' conditions, and could have affected his ability to make rational, accurate, and appropriate assessments, judgments, and decisions regarding patient care, thereby placing the patients in potential danger.
14. On or about April 16, 2009, while employed as a Registered Nurse with Tyson Fresh Meats, Amarillo, Texas, Respondent engaged in the intemperate use of Alcohol in that he provided a sample for a screening which resulted positive for Alcohol and over the legal limit for blood alcohol level. The use of Alcohol by a Registered Nurse, while subject to call or duty, could impair the nurse's ability to recognize subtle signs, symptoms or changes in the patient's condition, and could impair the nurse's ability to make rational, accurate, and appropriate assessments, judgments, and decisions regarding patient care, thereby placing the patient in potential danger.
15. In response to the conduct described in Finding of Fact Number Seven (7), Respondent admits to misappropriating Hydrocodone due to an addiction to pain medication developed after a knee surgery. He disagrees with Finding of Fact Number Eight (8), in that he was prescribed Hydrocodone by a physician. Respondent does not believe the validity of Findings of Fact Numbers Ten (10) and Eleven (11). He states he was mistakenly given Tramadol by a relative when he asked for an aspirin, and he unknowingly ate a meal cooked in wine sauce. Respondent contends that these mistakes resulted in the two positive tests described in the findings.
