D(2015.10.15)

6. At the time of the initial incident, Respondent was employed as a licensed vocational nurse with Memorial Hermann Baptist Hospital, Beaumont, Texas, and has been in this position for seven (7) years and three (3) months.
7. On or about May 14, 2009, while employed with Memorial Hermann Baptist Beaumont Hospital, Beaumont, Texas, Respondent lacked fitness to practice vocational nursing in the State of Texas in that she exhibited impaired behavior, including but not limited to: slurred speech, unsteady gait and jumbled thoughts. Respondent's conduct could have affected her ability to recognize subtle signs, symptoms or changes in patients' conditions, and could have affected her ability to make rational, accurate and appropriate assessments, judgments, and decisions regarding patient care, thereby placing the patients in potential danger.
8. On or about May 14, 2009, while employed with Memorial Hermann Baptist Beaumont Hospital, Beaumont, Texas, Respondent engaged in the intemperate use of benzodiazepines in that she produced a specimen for a reasonable suspicion/cause urine drug screen which resulted positive for benzodiazepines. Possession of benzodiazepines is prohibited by Chapter 481 of the Texas Health & Safety Code (Controlled Substances Act). The use of benzodiazepines by a Vocational Nurse, while subject to call or duty, could impair the nurse's ability to make rational, accurate, and appropriate assessments, judgments, and decisions regarding patient care, thereby placing the patient in potential danger.
9. In response to Finding of Fact Numbers Seven (7) and Eight (8), Respondent states:

"I was asked by my director to come to her office due to having unsteady gait and slurred speech. I had a new prescription for benzodiazepines and had taken them the night before unaware of my low tolerance which carried on till the next day. I was asked how did I feel. Both my director and I felt it was in the best interest that I go home for the remainder of the day. However the morning that this incident occurred I had no contact with any patients or equipment in the facility. Since then I have returned to work consistently with signed agreement that I will agree to perform frequent random drug tests for the next 12 months."
10. The Board finds that there exists serious risks to public health and safety as a result of impaired nursing care due to intemperate use of controlled substances or chemical dependency.

CONCLUSIONS OF LAW

1. Pursuant to Texas Occupations Code, Sections 301.451-301.555, the Board has jurisdiction over this matter.
2. Notice was served in accordance with law.
3. The evidence received is sufficient to prove a violation of Section 301.452(b)(9),(10)&(12), Texas Occupations Code, and 22 TEX. ADMIN. CODE §217.12(4),(5),(10)(A)&(10)(D).

4. The evidence received is sufficient cause pursuant to Section 301.452(b), Texas Occupations Code, to take disciplinary action against Vocational Nurse License Number 183671, heretofore issued to DENIELL LASHONYA GRAHAM, including revocation of Respondent's license(s) to practice nursing in the State of Texas.
